REMARKS

Responsive to the Office Action mailed on June 14, 2006 in the above-referenced application, Applicant respectfully requests amendment of the above-identified application in the manner identified above and that the patent be granted in view of the arguments presented. No new matter has been added by this amendment.

Present Status of Application

Claims 4, 17 and 25 are rejected under 35 U.S.C. 102(e) as being anticipated by Lin (US Patent No. 6,672,553). Claims 5-11 and 18-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

In this paper, claim 5 is amended to include all the limitations of claim 4. Claim 18 is amended to include all the limitations of claim 17. Claims 4, 17 and 25 are canceled. Thus, on entry of this amendment, allowable claims 5-11 and 18-24 remain in the application.

Applicant believes that the application is now in condition for allowance and respectfully requests so.

Respectfully submitted,
